

#	Latin Name	English Name	Comments
B01	<i>Brodiaea elegans</i>	Elegant Brodiaea	MS has photo – uncommon in county
B02	<i>Calochortus luteus</i>	Yellow mariposa lily	grassy east ridge-uncommon in county
B03	<i>Chlorogalum pomeridianum</i>	Soaproot	few colonies
B04	<i>Iris douglasiana</i>	Douglas iris	occasional
B05	<i>Piperia elegans</i>	Coast rein-orchid	2: one near west edge of property Uncommon in county
	<i>Piperia elongata</i>	Tall rein-orchid	small group-uncommon in county
B06	<i>Sisyrinchium bellum</i>	Blue-eyed grass	fairly common
B07	<i>Spiranthes romanzoffiana</i>	Ladies tresses orchid	2 or 3 on grassy slope near Hwy 1 uncommon in county
B08	<i>Trillium chloropetalum</i>	Giant trillium	2 or more groups, several color forms(?) – uncommon in county east ridge, etc.
B09	<i>Triteleia lutea</i>	Golden brodiaea	
B10	<i>Zantedeschia aethiopica*</i>	Calla lily	
F01	<i>Dryopteris arguta</i>	Wood fern	common on west ridge
F02	<i>Equisetum laevigatum</i>	Horsetail	colony
F03	<i>Pityrogramma triangularis</i>	Goldback fern	common on west ridge
F04	<i>Polystichum munitum</i>	Sword fern	
F05	<i>Pteridium aquilinum</i>	Bracken	common
	<i>Agrostis alba*</i>	Red top	colony at creek
G01	<i>Agrostis diegoensis</i>	Leafy bentgrass	several colonies, west ridge
	<i>Agrostis exarata exarata</i>	Tall bentgrass	colony in willow grove-rare in S.C. County
G02	<i>Agrostis exarata pacifica</i>	Pacific bentgrass	a few in wet swale, etc.
G03	<i>Agrostis tenuis*</i>	No English Name	one group
G04	<i>Aira caryophyllea*</i>	Silver hairgrass	common
G05	<i>Avena barbata*</i>	Wild oats	common
G06	<i>Brachypodium distachyon*</i>	Brachypodium	monocultures on part of east ridge
G07	<i>Briza maxima*</i>	Rattlesnake grass	one area
G08	<i>Briza minor*</i>	Little quaking grass	
G09	<i>Bromus mollis*</i>	Soft chess	common
G10	<i>Bromus diandrus*</i>	Ripgut grass	common
G11	<i>Bromus carinatus</i>	California brome	common, variable
	<i>Bromus sterilis*</i>	Slender ripgut	one colony; uncommon weed
G12	<i>Bromus stamineus*</i>	Chilean brome	few in valley, etc.
G13	<i>Cortaderia jubata*</i>	Pampas grass	around erosion gully, etc.
G14	<i>Cynodon dactylon*</i>	Bermuda grass	small patch
G15	<i>Dactylis glomerata*</i>	Orchard grass	small group on ridge
G16	<i>Danthonia californica</i>	Oatgrass	common
G17	<i>Deschampsia elongata</i>	Slender hairgrass	occasional
G18	<i>Elymus californicus</i>	California bottlebrush	common on slope of west ridge uncommon in county
G19	<i>Elymus glaucus</i>	Wild rye	mostly west ridge
G20	<i>Festuca arundinacea*</i>	Tall fescue	occasional

G21	<i>Festuca rubra</i> *	Red fescue	for erosion control, west ridge
G22	<i>Gastridium ventricosum</i> *	Nitgrass	
G23	<i>Holcus lanatus</i> *	Velvetgrass	along swale, etc.
G24	<i>Hordeum brachyantherum</i>	Meadow barley	along valley
G25	<i>Hordeum leporinum</i> *	Farmer's foxtail	few
G26	<i>Hordeum hystrix</i> *	Mediterranean barley	
G27	<i>Lolium multiflorum</i> *	Annual ryegrass	
G28	<i>Melica torreyana</i>	Melica	west ridge
G29	<i>Paspalum dilatatum</i> *	Dallis grass	few along swale
G30	<i>Paspalum distichum</i> *	Knot grass	small patch in swale
G31	<i>Phalaris tuberosa</i> *	Harding grass	valley, etc.
G32	<i>Poa annua</i> *	Annual bluegrass	few in valley
G33	<i>Polypogon monspeliensis</i> *	Rabbit's foot grass	swale
G34	<i>Nassella las</i>	Small-flowered stipa	patches on west ridge
G35	<i>Nassella als</i>	Purple needlegrass	common
G36	<i>Vulpia bromoides</i> *	Six-weeks fescue	common
G37	<i>Vulpia myuros</i> *	Rattail fescue	common
H001	<i>Acaena californica</i>	Acaena	grassland near top of east ridge
H002	<i>Achillea borealis</i>	Yarrow	grassy hill, east ridge
H003	<i>Actaea arguta</i>	Baneberry	2 groups, relatively uncommon locally, berries are toxic.
H004	<i>Alchemilla occidentalis</i>	Lady's mantle	slope of west ridge
H005	<i>Anagallis arvensis</i> *	Scarlet pimpernel	
H006	<i>Anthriscus caucalis</i> *	Bur-chervil	few
H007	<i>Artemisia douglasiana</i>	Mugwort	few patches
H008	<i>Aster chilensis</i>	Common aster	common
H009	<i>Baccharis douglasii</i>	Saltmarsh baccharis	few patches
H010	<i>Barbarea orthoceras</i>	Yellow cress	few
H011	<i>Boisduvalia densiflora</i>	Boisduvalia	few in swale-relatively uncommon locally
H012	<i>Brassica geniculata</i> *	Summer mustard	
H013	<i>Callitriche</i> sp.	Water starwort	few in creek
H014	<i>Calystegia soldanella</i>	Hill morning glory	grassy east ridge-relatively uncommon locally
H015	<i>Camissonia ovata</i>	Suncups	common in grassland
H016	<i>Cardamine oligosperma</i>	Popweed	abundant
H017	<i>Carduus pycnocephalus</i> *	Italian Thistle	common
H018	<i>Castilleja affinis</i>	Paintbrush	patch on west ridge
H019	<i>Centaurea melitensis</i> *	Tocalote	few near Highway 1, etc.
H020	<i>Cerastium viscosum</i> *	Mouse-ear chickweed	occasional
H021	<i>Chrysanthemum leucanthemum</i> *	Daisy	top of west ridge
H022	<i>Cirsium brevistylum</i>	Indian thistle	west ridge; common
H023	<i>Cirsium vulgare</i> *	Bull thistle	fairly common
H024	<i>Conium maculatum</i> *	Poison hemlock	fairly common
H025	<i>Convolvulus arvensis</i> *	Bindweed	one colony
H026	<i>Conyza canadensis</i>	Horseweed	common

H027	<i>Conyza sumatrensis</i> *	Horseweed	several places
H028	<i>Corethrogyne filaginifolia</i>	Dune-aster	grassy east ridge
	<i>Caranopus didymus</i>		one in valley
H029	<i>Cryptantha micromeres</i>	<i>Cyrypantha</i>	colony west ridge
H030	<i>Cynoglossum grande</i>	Hound's tongue	one on west ridge
H031	<i>Daucus pusillus</i>	Rattlesnake weed	few on west ridge
H032	<i>Datura stramonium</i> *	Jimson weed	one in valley
H033	<i>Dipsacus fullonum</i> *	Teasel	few in valley
H034	<i>Epilobium ciliatum</i>	Willow herb	along swale
H035	<i>Erechtites arguta</i> *	Fireweed	west ridge, etc.
H036	<i>Erechtites prenanthoides</i> *	Fireweed	west ridge, etc.
H037	<i>Eriophyllum confertiflorum</i>	Yellow yarrow	small colony west ridge
H038	<i>Erodium botrys</i> *	Long-beak filaree	sandy slope
H039	<i>Erodium cicutarium</i> *	Redstem filaree	occasional
H040	<i>Erodium moschatum</i> *	Musk Filaree	few in valley
H041	<i>Eschscholzia californica</i>	California poppy	patches
H042	<i>Euphorbia lathyris</i> *	Gopher spurge	near San Andreas Road
H043	<i>Euphorbia peplus</i> *	Petty spurge	several places
H044	<i>Filago gallica</i> *	Filago	
H045	<i>Fragaria californica</i>	California strawberry	increasing
H046	<i>Galium aparine</i> *	Bedstraw	common
H047	<i>Galium californicum</i>	California bedstraw	few on west ridge
H048	<i>Galium porrigens</i>	Climbing bedshaw	only one seen
H049	<i>Geranium dissectum</i> *	Cranesbill	
H050	<i>Gnaphalium californicum</i>	California cudweed	few
H051	<i>Gnaphalium 'gianonei'</i>	Coast cudweed	one west ridge, one in swale-a "new" undescribed species
H052	<i>Gnaphalium chilense</i>	Cotton batting plant	west ridge, few
H053	<i>Gnaphalium luteo-album</i> *	Weedy cudweed	valley, etc.
H054	<i>Gnaphalium purpureum</i>	Purple cudweed	fairly common
H055	<i>Gnaphalium ramosissimum</i>	Pink everlasting	fairly common
H056	<i>Helenium puberulum</i>	Sneezeweed	swale and west ridge
	<i>Heracleum maximum</i>	Cow-parsnip	west ridge
H057	<i>Hesperocnide tenella</i>	Western nettle	few on west ridge
H058	<i>Heterotheca grandiflora</i>	Telegraph weed	base of east ridge
H059	<i>Horkelia californica?</i>	Horkelia	one in valley
H060	<i>Hypochaeris glabra</i> *	Smooth cat's ear	common
H061	<i>Hypochaeris radicata</i> *	Hairy cat's ear	common
H062	<i>Lathyrus vestitus</i>	Pacific pea	west ridge
H063	<i>Linum bienne</i> *	Flax	east ridge
H064	<i>Lobularia marina</i> *	Sweet alyssum	few
H065	<i>Lotus corniculatus</i> *	Birdsfoot trefoil	swale
H066	<i>Lotus formosissimus</i>	Coast trefoil	few in swale
H067	<i>Lotus micranthus</i>	Small flowered trefoil	common
H068	<i>Lotus purshianus</i>	Spanish trefoil	fairly common
H069	<i>Lotus scoparius</i>	Deerweed	fairly common

H070	<i>Lotus strigosus</i>	Strigose trefoil	few at base of east ridge, including
H071	<i>Lupinus nanus</i>	Sky lupine	colony near base of east ridge
H072	<i>Lythrum hyssopifolia</i> *	Loosestrife	few in swale
H073	<i>Madia exigua</i>	Dwarf tarweed	several places
H074	<i>Madia gracilis</i>	Slender tarweed	west ridge etc.
H075	<i>Madia sativa</i> *	Chile tarweed	
H076	<i>Marah fabaceus</i>	Wild cucumber	few
H077	<i>Chamomilla suaveolens</i>	Pineapple weed	few in valley
H078	<i>Mentha pulegium</i> *	Pennyroyal	swale
H079	<i>Mentha sp</i> *	Mint	colony at swale
H080	<i>Microcala quadrangularis</i>	Timwort	few on west ridge
H081	<i>Claytonia montia</i>	Narrow-leaf miner's lettuce	
H082	<i>Claytonia perfoliata</i>	Miner's lettuce	colony with <i>D. fir</i>
	<i>Claytonia rubra</i>	Red miner's lettuce	west ridge
H083	<i>Navarretia squarrosa</i>	Skunkweed	few in valley
H084	<i>Orthocarpus densiflorus</i>	Owl's-clover	few on east ridge
H085	<i>Triphysaria pusilla</i>	Dwarf Owl's-clover	few on west ridge
H086	<i>Oxalis pilosa</i>	Hairy sorrel	fairly common
	<i>Oxalis corniculata</i> *	Creeping sorrel	one colony in valley
H087	<i>Picris echioides</i> *	Bristly Oxtongue	few in valley
H088	<i>Plantago coronopus</i>	Cutleaf plantain	few
H089	<i>Plantago erecta</i>	California plantain	common on east ridge
H090	<i>Plantago lanceolata</i> *	English plantain	common
H091	<i>Polygonum aviculare</i> *	Knotweed	
H092	<i>Polygonum punctatum</i>	Water smartweed	swale, etc.
H093	<i>Polycarpon tetraphyllum</i> *	Polycarp	few
H094	<i>Potentilla glandulosa</i>	Sticky cinquefoil	west ridge
H095	<i>Psilocarphus tenellus</i>	Woolly-heads	occasional
H096	<i>Rupertia physodes</i>	California tea	colonies near west edge of property
H097	<i>Ranunculus californicus</i>	California buttercup	occasional in grassland
H098	<i>Raphanus sativus</i> *	Wild radish	
H099	<i>Rumex acetosella</i> *	Sheep-sorrel	common
H100	<i>Rumex conglomeratus</i> *	Green dock	common along swale
H101	<i>Rumex crispus</i> *	Curly dock	swale
H102	<i>Rumex salicifolius</i>	Willow leaf dock	one in swale
H103	<i>Sagina apetala</i> *	Pearlwort	few places
H104	<i>Sanicula bipinnatifida</i>	Purple sanicle	occasional on east ridge
H105	<i>Sanicula crassicaulis</i>	Gambleweed	common
H106	<i>Sanicula 'gianonei'</i>	Gambleweed	colony on moist slope of west ridge – a “new” undescribed, unpublished species.
H107	<i>Satureja douglasii</i>	Yerba buena	common
H108	<i>Scrophularia californica</i>	Figwort	west ridge
H109	<i>Silene gallica</i> *	Catchfly	fairly common in grassland
H110	<i>Silybum marianum</i> *	Milk thistle	near San Andreas Road
H111	<i>Smilacina stellata</i>	Thin solomon's seal	remarkably large colony on west ridge

H112	<i>Solidago canadensis</i>	Meadow goldenrod	colony on slope of west ridge
H113	<i>Solidago occidentalis</i>	Western goldenrod	along swale, etc.
H114	<i>Soliva sessilis</i> *	Soliva	valley, etc.
H115	<i>Sonchus asper</i> *	Prickly sow-thistle	
H116	<i>Sonchus oleraceus</i> *	Sow-thistle	few
H117	<i>Spergularia rubra</i> *	Sand-spurrey	valley
H118	<i>Stachys ajugoides</i>	Marsh hedge nettle	along swale, etc.
H119	<i>Stachys bullata</i>	Hedge nettle	
H120	<i>Stellaria media</i> *	Chickweed	
H121	<i>Crassula tillaea</i> *	Pygmyweed	several colonies
H122	<i>Torilis arvensis</i> *	Hedge parsley	nasty weed on west ridge, few so far
H123	<i>Trifolium angustifolium</i> *	Narrow-leaf clover	common
H124	<i>Trifolium bifidum decipiens</i>	Pinole clover	few on west ridge
H125	<i>Trifolium ciliolatum</i>	Tree clover	few on west ridge, one on east ridge
H126	<i>Trifolium dubium</i> *	Shamrock	valley, etc.
H127	<i>Trifolium fragiferum</i> *	Strawberry clover	one patch in valley
H128	<i>Trifolium glomeratum</i> *	Cluster clover	suddenly common in valley
H129	<i>Trifolium gracilentum</i>	Pinpoint clover	few on west ridge, one on east ridge
H130	<i>Trifolium hirtum</i> *	Rose clover	valley, etc.
H131	<i>Trifolium macraei</i>	MacRae's clover	one on west ridge
H132	<i>Trifolium microcephalum</i>	Small-headed clover	few on west ridge
H133	<i>Trifolium microdon</i>	Small-tooth clover	few on west ridge
H134	<i>Trifolium campestre</i> *	Hop clover	fairly common
H135	<i>Trifolium repens</i> *	White clover	small colony in valley
H136	<i>Trifolium subterraneum</i> *	Subclover	common in valley
	<i>Typhalatifolia</i>	Cattail	small colony in pond, Indians ate roots and used seed fluff for pampers
H137	<i>Urtica holosericea</i>	Hoary nettle	scattered colonies
H138	<i>Verbena lasiostachys</i>	Vervain	fairly common
H139	<i>Vicia americana</i>	American vetch	few on west ridge
H140	<i>Vicia angustifolia</i> *	Narrow-leaf vetch	fairly common
H141	<i>Vicia hirsuta</i> ?*	Miniature vetch	few on west ridge
H142	<i>Vicia sativa</i> *	Common vetch	few
H143	<i>Vicia villosa</i> *	Woolly vetch	occasional
H144	<i>Wyethia angustifolia</i>	Mule-ears	colony near top of east ridge-uncommon in county
R01	<i>Juncus bufonius</i>	Toad rush	common
R02	<i>Juncus effusus brunneus</i>	Bog rush	swale
R03	<i>Juncus effusus pacificus</i>	Bog rush	swale
R05	<i>Juncus occidentalis</i>	Western rush	occasional in grassland
R06	<i>Juncus patens</i>	Common rush	common
R07	<i>Juncus phaeocephalus</i>	Brown-headed rush	common along swale
R08	<i>Luzula subsessilis</i>	Wood rush	few on knoll, west edge
S01	<i>Carex barbarae</i>	Santa Barbara Sedge	several patches, rhizomes were prized for basketry

S02	<i>Carex brevicaulis</i>	Short-stem sedge	near summit of east ridge- relatively uncommon locally
S03	<i>Carex densa</i>	Dense sedge	occasionally along swale
S04	<i>Carex globosa</i>	Round-fruited sedge	dry brushy and wooded areas
S05	<i>Carex harfordii</i>	Harford's sedge	swale and ridge
S06	<i>Carex subbracteata</i>	Short-bracted sedge	common
S07	<i>Carex tumulicola</i>	Foothill sedge	west ridge
S08	<i>Cyperus eragrostis</i>	Umbrella-sedge	along swale
S09	<i>Eleocharis macrostachya</i>	Spikerush	marshy area at NE corner
S10	<i>Eleocharis acicularis</i>	Dwarf spikerush	small colony in swale- uncommon locally
SV01	<i>Arctostaphylos tomentosa</i>	Brittle-leaf manzanita	west ridge-excellent berries, fresh or for cider
SV02	<i>Baccharis pilularis</i>	Coyote brush	common
SV03	<i>Ceanothus thyrsiflorus</i>	Blue blossom	occasional
SV04	<i>Cistus</i> sp.*	Rock-rose	one on ridge
SV05	<i>Corylus californica</i>	Hazel	possibly the largest, densest stand in County; Indians are the nuts and made arrows from the slender shoots
SV06	<i>Cotoneaster pannosa</i> *	Cotoneaster	fairly common; 1 or 2 very large patches being removed; still common
SV07	<i>Cytisus monspessulanus</i> *	French broom	common
SV08	<i>Diplacus aurantiacus</i>	Bush monkeyflower	common
SV09	<i>Ilex europaea</i> *	English holly	few
SV10	<i>Lonicera hispidula</i>	Hairy honeysuckle	fairly common
SV11	<i>Lupinus arboreus</i>	Yellow bush lupine	few places
SV12	<i>Myrica californica</i>	Wax-myrtle	few on west ridge; very large
SV13	<i>Osmaronia cerasiformis</i>	Osoberry	two places
SV14	<i>Pyracantha</i> sp.*	Pyracantha	one in valley
SV15	<i>Rhamnus californica</i>	Coffee berry	common
SV16	<i>Ribes divaricatum</i>	Creek gooseberry	mostly along valley; good berries
SV17	<i>Ribes glutinosum</i>	Pink currant	probably largest stand in county, including individuals of record size and quality
SV18	<i>Rosa californica</i>	California rose	one near San Andreas Road
	<i>Rosa</i> sp.*	Rose	one in valley
SV19	<i>Rubus procerus</i> *	Himalaya berry	few in valley, still small
SV20	<i>Rubus ursinus</i>	California blackberry	common, formerly co-dominant in oak woods and willow groves
SV21	<i>Sambucus mexicana</i>	Blue elderberry	common
SV22	<i>Delairea odorata</i> *	Cape ivy	small patch at entrance, big patch
SV23	<i>Solanum douglasii</i>	Douglas' nightshade	occasional on west ridge
SV24	<i>Solanum umbelliferum</i>	Blue witch	occasional on west ridge
SV25	<i>Toxicodendron diversilobum</i>	Poison oak	common, formerly codominant with oak woods and willow groves
T01	<i>Acacia dealbata</i> *	Silver wattle	grove outside property near Hwy. 1
T02	<i>Acer macrophyllum</i>	Bigleaf maple	two

T03	<i>Arbutus menziesii</i>	Madrone	several; many seedlings
T04	<i>Maytenus</i> sp.*	Mayten tree	one in riparian strip
T05	<i>Pinus radiata</i> *	Monterey pine	several
T06	<i>Populus trichocarpa</i>	Black cottonwood	small grove near Hwy. 1 and 2 isolated trees
T07	<i>Pseudotsuga menziesii</i>	Douglas fir	one large tree and several small
T08	<i>Pyrus communis</i> *	Pear	two volunteers
T09	<i>Quercus agrifolia</i>	Coast live oak	dominant on slopes
T10	<i>Salix lasiandra</i>	Yellow willow	along swale
T11	<i>Salix lasiolepis</i>	Arroyo willow	dominant along swale
